Suite 4
Noosa Hospital
111 Goodchap St
Noosaville QLD 4566

We offer comprehensive renal services across the Sunshine Coast, with clinics provided at Birtinya, Nambour and Noosa for the convenience of patients.

We are delighted to announce Dr Jane Waugh will be joining Sunshine Coast Renal Clinic in 2018. Dr Waugh will continue her work at Gympie Hospital and SCUH, as well as hold a private clinic at Nambour Selangor Private Hospital.

Our team admits inpatients across the Sunshine Coast.

For more information on the clinic locations for each Doctor, please call our receptionist for more details.

The clinics provide:

- Outpatient consultation for chronic kidney disease, hypertension.
- Patient care for people with acute kidney injury, chronic kidney disease and related issues.
- Dialysis care through both our public and private units.
- We perform renal biopsies and insert dialysis accesses if required.
- The majority of our management is related to prevention of people reaching dialysis.
- We also provide outpatient care and assessment of renal and transplant patients.
- We now have a private in-patient and maintenance Haemodialysis at SCUPH, which complements our service at Nambour Selangor.
